

Battery mount options for LV 5380

Suitable for field use, two types of battery mount options are newly introduced for the LV 5380 Waveform Monitor equipped with a color LCD display.

Each option is for the V-Mount and Anton Bauer type battery.

Since the V-Mount and Anton Bauer type batteries are widely used for pro-video cameras, the battery attached to the camera can also be used to the LV 5380.

OP73 (V-Mount)

OP74 (Anton Bauer)

About Leader Electronics

Leader Electronics selects and focuses on the professional video area of digital TV, on specialized portions of the consumer electronics area, as well as on the optical disk area for DVD/CDs and on the flat panel display area for LCD/PDP in order to achieve effective management. The evolution of electronics is endless and it is the most important technology as there can be no industry without the use of electronics. With experience and history of 54 years, we are committed to being a leading company in the area of test instrumentation so that we can always develop new products that apply to new electronics applications.
