

PHABRIX PRESS RELEASE

Date: Jul.21,2009

Leader Electronics Corporation has Acquired Distribution Rights in Japan, Asia, and Russia for the UK based company PHABRIX Limited

YOKOHAMA, Japan-(BUSINESS WIRE)-Leader Electronics Corporation (JASDAQ 6867) has acquired distribution rights in Japan, China, Korea, Taiwan, and Russia for broadcast video test equipment produced by the UK based company PHABRIX Limited. The contract includes product marketing, servicing, and customer support.

PHABRIX Limited is a company that is constantly striving for superior engineering. Their main products are compact broadcast video testers, each of which combines a video signal generator, which is an indispensable piece of equipment for broadcast engineers, with a 16:9 LCD monitor that has video waveform display and audio display capabilities.

Leader Electronics Corporation will market and promote these products throughout the video test equipment markets of Asia and Russia.

About Leader Electronics

Leader Electronics selects and focuses on the professional video area of digital TV, on specialized portions of the consumer electronics area, as well as on the optical disk area for DVD/CDs and on the flat panel display area for LCD/PDP in order to achieve effective management. The evolution of electronics is endless and it is the most important technology as there can be no industry without the use of electronics. With experience and history of 55 years, we are committed to being a leading company in the area of test instrumentation so that we can always develop new products that apply to new electronics applications.
